Wrap for Wrappers by Agritel

Turn your pallet wrap spend into a long-term packaging solution.

What is Wrap for Wrappers?

Wrap for Wrappers is Agritel's smart, low-risk way to get a high-performance pallet wrapper installed at your site with no upfront cost — and own it for just £1 at the end. Instead of buying the machine outright, you commit to sourcing your stretch film from Agritel over an agreed term. We tailor the agreement around your volumes, preferences, and operational needs.

How It Works

✅ **Free Installation**

We supply and install a premium pallet wrapper at your site, fully set up and ready to go — with training if required.

✅ **Tailored Film Supply Agreement**

You commit to purchasing stretch film from Agritel over an agreed term. The contract length and product type are customised to match your usage, budget, and load type.

✅ **Machine Ownership for £1**

At the end of the agreement, ownership of the pallet wrapper is transferred to you for just £1 + VAT. It's not a lease. It's not hire. You own the machine.

Why Choose Wrap for Wrappers?

🔁 Flexible to Your Operation

- Contract length based on your usage
- Can be arranged to work with your overall packaging spend.
- Options for single or multiple machines
- Adjustable if your demand grows

💰 No Capital Outlay

Avoid CapEx — free up your cash for other priorities while still upgrading your packaging operation.

📈 ROI-Driven

Stretch film is already a cost in your business — Wrap for Wrappers simply redirects that spend into a long-term packaging solution with full ownership.

🛠️ Reliable Support

Agritel has nearly 30 years of experience in packaging. Our machines are robust, reliable, and fully supported throughout your agreement.

Is It Right for You?

Wrap for Wrappers is ideal for:

- Businesses wrapping multiple pallets daily
- Operations that want to avoid CapEx
- Procurement teams seeking fixed, predictable costs
- Sites that want to own, not lease, their machines
